פרטי הקורס

אין	דרישות קדם
<p>Course Goals: The course approaches the issue of terrorism from a psychological perspective. It covers major theoretical and psychological concepts that are required to understand important psychological aspects of terrorism. The course begins with general conceptualizations, than discusses social and individual psychology including profiling, and finally introduces theories of group psychology and their implementation in counter terrorism. Students who will graduate the course will understand the psychological rational and motivations of individual terrorists, terrorist leaders, and terrorist organizations.</p>	מטרות/יעדי הקורס
